PRESS RELEASE on NOVEMBER 2, 2019.

Norrbotten Exploration applies for new exploration reservation in northern Finland.

Arctic Minerals AB (Nasdaq First North Growth Market, Stockholm (“ARCT”) is pleased to announce it has identified a new area with exploration potential for PGE (platinum group elements) and chromite in northern Finland. Arctic Minerals’ subsidiary, Norrbotten Exploration AB, has therefore applied to Tukes, the authority in charge of mineral rights in Finland, for an exploration reservation covering 8.0 km². The new reservation application, “Paasivaara”, is located approximately 15 km northeast of the city of Kemi, Finland.

Arctic Minerals identified the area through study of the geophysical and geological data available from GTK (Geological Survey of Finland). The company will now conduct further detailed modeling of available geophysical data in order to help identify possible drill targets.
